Hello Staff and Commissioners,

Thank you for the work you do. I understand your office is short-staffed and many cases are submitted. I appreciate the new streamlined processes the FPPC is implementing. My concern is the time cases take to have a final resolution. I recognize as a member of the public I do not know all the work and steps involved. It's just frustrating that campaign season is upon us and a case opened on 10/19/2020 has not had a resolution. I submitted evidence showing violations and plenty of details. Now, one of the candidate's family members is running for the same office and some are concerned that illegal or not allowed behavior will continue because no action has been taken in this case. I hope your office can help move the resolution of case 2020-00888 along.

Thank you

Jose Sandoval
