### EXTERNAL EMAIL

Hello,

Adina Flores of Santa Rosa, CA has been harassing, stalking, and threatening Sonoma County elected officials for a year now. One of her methods is to file bogus complaints with the FPPC, then publicly announce a person/entity is under investigation by the FPPC, suggesting wrongdoing just for the complaint being submitted.

She's filing bogus complaints with several other government agencies as well involving her ridiculous conspiracy theories. Sonoma County residents are sick of her. She clearly has mental health issues. She already has a restraining order against her for domestic violence.

FPPC needs to get a restraining order against her to put an end to her using FPPC complaints as a tool to harass so many people.

Thank you.

JL
