Subject: Effective Date of Amended Reg 18410

EXTERNAL EMAIL

Good Morning,

In reviewing the upcoming meeting next week I see that you are discussing the Form 410 and disclosing the authorized bank signers on the public forms. PLEASE do not do this before requiring REDACTION on Form 410. It is crazy to give someone the information they need to commit fraud! Fraud is happening more often than it used to - it keeps me awake at night worrying about how much critical information is just floating out there waiting to get into criminal hands. Please do not make it easier for them. The Form 410 bank account number and authorized signers should both be required to be REDACTED information and never made public. Please consider delaying the implementation of the reg until the above can happen.

Thank you for your consideration from someone who has many committees and many bank accounts to watch over daily.

Jen Slater
