## EXTERNAL EMAIL

Hello,

I'm writing to express concern with the new rule that 87200 filers must file using the FPPC's e-filing system rather than the Netfile system, which was approved for use by the FPPC. Doing so will make it more difficult for filers as they typically have expanded statements for various other agencies and are able to complete those in one entry using Netfile, but won't be able to do so in the FPPC's system. Additionally, it will make it more difficult for clerks to track whether they've filed and for the public to view the statements, which are currently available on city websites.

I'm asking that the FPPC consider making an exception for filing platforms that were previously approved and continue allowing our 87200 filers to use the current systems.
